Complaint II X87029114148

NOTICE OF VIOLATION

Dear Mr. Garber:

This letter is to confirm the findings of the Department's referenced inspection on January 28, 1987, which revealed that paint sludge and other unknowns were dumped on the ground along the outside embankment of your facility.

Such action is in violation of the Department's Act 97, Solid Waste Management Act (1980) Article III, Residual Waste, Section 301. Management of Residual Waste and Article IV. Hazardous Waste, Section 401. Management of Hazardous Waste.

It was also noted that there were numerous 55 gallon drums containing unknown material, a QC lab containing off-spec material, solvents,... and an adjacent lot containing numerous, presumably empty corroded 55 gallon drums.

We request that you submit to this office within (14) days a proposal and schedule for the removal of all wastes on-site, any testing done to determine disposal methods and any manifests or shipment records of wastes shipped off-site.

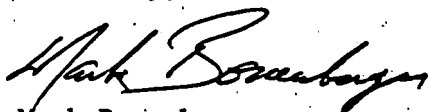

This letter does not waive, either expressly or by implication, the power or authority of the Commonwealth of Pennsylvania to prosecute for any or all violations of law arising prior to or after the issuance of this letter or the conditions upon which the letter is based. This letter shall not be construed so as to waive or impair any rights of the Department of Environmental Resources, heretofore or hereafter existing.

ORIGINAL

This letter shall also not be construed as a final action of the Department of Environmental Resources.

If you have any questions concerning this matter, please feel free to contact me at 565-1687.

Sincerely,

Mark Bonenberger
Waste Management Specialist
